

Please do not repeal NJ's Do Not Call Legislation, but use it as a model for national legislation on this issue. NJ consumers pay for their telephone service each month and should not be subjected to unsolicited and unwanted sales calls. Consumers who have specifically signed this "Do Not Call List" do not want to be contacted by telemarketers. Please consider the wishes of the public rather than the wishes of telemarketers, even if the profits of those telemarketers contribute more to Congressional re election campaigns. Do the right thing.
